Choose the correct answers for the following questions: (2 marks for each correct answer)

Read the following passage then answer the questions (1 to 5)

Hang-gliding started in the USA in the 1940s. The sport gets its name from the early hang-gliders where you actually had to hang by your arms. Now, of course, you have a seat to sit on, so it's much more comfortable. You can learn to hang-glide at a training school. You must be over 16 and quite fit.

You need warm clothes, even in the summer, because it can get very cold in the wind. When you land your feet hit the ground first, so you must have a good strong pair of boots. The weather is important. Obviously, it isn't safe to fly when there is low cloud or mist because you can't see where you are going. And it can be dangerous to fly in heavy rain as the hang-glider can get wet and causes accidents. Most accidents are also caused by flying in strong winds so you must always check the wind speed.

Read the following passage then answer the questions (1 to 5)

Hang-gliding started in the USA in the 1940s. The sport gets its name from the early hang-gliders where you actually had to hang by your arms. Now, of course, you have a seat to sit on, so it's much more comfortable. You can learn to hang-glide at a training school. You must be over 16 and quite fit.

You need warm clothes, even in the summer, because it can get very cold in the wind. When you land your feet hit the ground first, so you must have a good strong pair of boots. The weather is important. Obviously, it isn't safe to fly when there is low cloud or mist because you can't see where you are going. And it can be dangerous to fly in heavy rain as the hang-glider can get wet and causes accidents. Most accidents are also caused by flying in strong winds so you must always check the wind speed.
